

Schools Fantasy League ,SFL, was conceived in 1999. Each year schools register to take part in the programme which sees pupil's, teachers and parents adopt the roles of a Premier League manager, and choose a fantasy football team. They manage their team throughout the nine month season, making transfers along the way in hope that they'll be top of the school leader board at the end of the season and claim their prize.

Schools are invited to register for the 2011/12 season now! For more information they should visit www.schoolsfl.com with our school PIN number available on school posters or from Mrs Martin.

Mrs Martin, Chairman of the League, said "Fantasy Football club will meet Wednesdays in room 607 if you are interested to meet your competition and make transfers to your failing teams. I say failing because I'm going to win!

Teachers tell me it improves maths and ICT skills, and helps develop a positive community within the school. I'm not sure about that but it's a great competition.

1,407 schools finished the season last year, there were 47,203 entrants.

The overall winner of the 2010/11 season was Jack Rowett, a year 12 pupil From Burgate School in Hampshire. His team, Mirror image, collected 494 points over the course of the season. **This year it could be you.**
